Professional Summary

Front-End Developer passionate about creating responsive and optimized websites. With strong expertise in HTML5, CSS3, and JavaScript (ES6), I have developed practical experience designing and implementing complete website solutions independently. Dedicated to continuous learning, I aim to deliver high-quality, user-friendly, and visually appealing web solutions while staying updated with the latest industry trends.

Key Skills

- Proficient in HTML5, CSS3, JavaScript (ES6+), Wordpress, Elementor PRO
- Experience with SEO optimization and performance enhancements
- Responsive web design and cross-browser compatibility
- Performance optimization: PageSpeed Insights, LiteSpeed Cache
- Version control: Git, GitHub
- UI/UX Design: Figma

Professional Experience

Freelance Front-End Developer
2023

- Designed and developed the website "Luces para autos Guatemala," an e-commerce platform specializing in LED vehicle lights.
- Optimized SEO, resulting in top 5 search rankings for all relevant keywords and consistent traffic growth reaching 20,000 monthly users.
- Improved website performance with a PageSpeed Insights score of 80+ by optimizing images, leveraging browser caching, and implementing best practices for accelerated loading times.

- Enhanced the company's online presence and sales through a user-friendly, visually appealing, and fully functional website.

Personal Projects

- **Portfolio Website:** Designed and built a personal portfolio showcasing front-end development projects using HTML, CSS, and JavaScript.
- **Lucky Shrub Website:** Created a responsive and visually appealing website for a fictional landscaping company, demonstrating strong design and coding skills.

Education and Certifications

Meta Front-End Developer Professional Certificate *(In Progress)*

- Completed 5 of 9 courses with grades above 90.
- Currently enrolled in "Advanced React."

Self-Taught Learning

- Completed online courses and official documentation in front-end web development, SEO, and modern tools.

Languages

- Spanish: Native
- English: Basic (capable of engaging in technical web development conversations)

Interests

Continuous learning, emerging technologies, motorcycle rides, and video games.

Professional Goals

Motivated to contribute to innovative projects as a Front-End Developer, particularly in fast-paced environments like startups. Eager to expand my knowledge in UI/UX design and modern frameworks while delivering optimized, user-centric solutions.
